**[-Humane Society \(local resources\)](#)**

We understand this can be a difficult decision. Due to the overwhelming amount of surrender requests and dogs needing placement, Pawsitive Pathways, like many other shelters, are often at capacity. The first step is to gather more information about your dog. Please complete our Owner Surrender Application with as many details as possible here: <https://www.pawsitivepathwaysco.com/forms>

Once we review your application, we'll follow up about possible next steps. While we cannot guarantee intake, this helps us determine how and if we can assist. If behavior or training issues are involved, we encourage exploring the various free resources available first. Or for guidance on rehoming on your own, the above resources can help.

Many owners start with direct rehoming and meeting potential adopters themselves, which is often the best transition and option for your dog.

Thank you for reaching out and seeking a humane outcome for your dog.
